Dear Laurie,

This container is behind the future studios in North Fig, in the parking lot. It has been sitting there for days.

Apparently it is owned by Republic and they are no longer the franchise company for the district. I am told they have been called to come and take it away forever, but no response.

I offered to see what we could do because we probably have a relationship with Republic in other districts and maybe they would respond to us if we called.

Molly or Grace might have a contact number for you.

Can you give it a try?

Thanks

Rick
